

# **Climate Change Response Amendment Bill**

Government Bill

As reported from the Commerce Committee

## **Commentary**

### **Recommendation**

The Commerce Committee has examined the Climate Change Response Amendment Bill and recommends by majority that it be passed with the amendments shown.

### **Introduction**

This commentary focuses on the major issues we examined and the amendments recommended. The bill also contains some amendments aimed at clarifying the intent of this bill and other technical and minor changes, which are not discussed.

This bill amends the Climate Change Response Act 2002 in respect of the function of New Zealand's Kyoto Protocol Registry. The bill will allow the Crown to transfer emission units to New Zealand businesses and individuals and will allow those businesses and individuals to hold accounts in the registry and to trade in emission units.

The bill also provides for the accounting of two new types of units in the registry, which were created by international decisions taken in 2003, and will make several amendments to provide for the efficient administration of the registry.

The bill makes changes to the Forests Act 1949 and the Forestry Rights Registration Act 1983 to provide for the establishment of the Permanent Forest Sink Initiative.

The bill makes consequential changes to the Privacy Act 1993.

### **Conditions under which Ministers may instruct the Registrar**

The majority recommend that clauses 5 and 13 be amended to state the conditions under which the Minister of Finance and the Minister responsible for the registry may give directions to the Registrar in relation to accounts, and units in those accounts, held by entities other than the Crown.<sup>1</sup>

The bill as drafted allows the Minister of Finance under clause 5 and the Minister responsible for the registry under clause 13 to direct the Registrar to transfer units from a holding account and to close a holding account in the registry.

The holding of accounts and units by businesses or individuals could be considered to be akin to a property right. As such it is important that this right is safeguarded to protect the interests of the unit and account holder. It is important therefore to specify in the Act, as far as possible, the criteria and circumstances under which the Ministers' powers may be exercised to transfer units, close accounts and take other actions that affect the interests of unit and account holders.

The majority recommend that the Ministers may only direct the Registrar in relation to the closure of accounts and the transference of units held by entities other than the Crown in certain specified circumstances, including where the direction is required for New Zealand to comply with its obligations under the Kyoto Protocol and where the account holder has failed to comply with the Climate Change Response Act or regulations promulgated under that Act.

### **Crown liability in relation to registry inaccuracies**

The majority recommend that clause 23, inserting new section 30A into the Climate Change Response Act 2002, be amended to allow an action to be brought against the Crown or the Registrar where an inaccuracy in the registry has arisen except where the Crown has reasonably relied on external information providers.

Clause 23 stated that no action may be brought against the Crown or the Registrar for any loss or damage resulting from an inaccuracy in a search of the unit register or an inaccurate entry in the unit register. This provision was felt necessary as data contained in the register is

provided and imported into the register from outside sources. The Crown, reliant on outside sources for this data and having no control over its accuracy, should not, therefore, be liable for loss or damage caused by such inaccuracies.

While we find this argument acceptable, the clause as drafted absolved the Crown of responsibility for not only inaccuracies beyond its control but for those within its control and which it should take reasonable care to prevent. The majority recommend therefore that the clause be amended so that there is no bar to bringing an action against the Crown or Registrar in cases where an inaccuracy in the registry has arisen except where the Crown has reasonably relied on external information providers.

### **Registration of covenants on Crown land**

The majority recommend that clause 30, inserting new section 67Y into the Forests Act 1949, be amended to allow covenants to be registered against Crown land.

The bill was drafted on the premise that a landowner seeking to enter a forest sink covenant with the Crown will be a separate entity from the Crown. As a general proposition a person cannot covenant with and thus bind him or herself. There is doubt therefore whether the Crown could covenant and bind itself. To remove this doubt the majority recommend that the bill be amended to allow the Crown to enter into a forest sink covenant with itself as landowner.

### **Opposition members view (New Zealand First, New Zealand National, and ACT New Zealand)**

Opposition members oppose this bill on the grounds that New Zealand should not be implementing the Kyoto Protocol ahead of our major trading partners.

  - “(b) if registered, creates an interest in land that runs with that land.

- 
- “(4) If a forest sink covenant is registered under the Land Transfer Act 1952, and any provision of that covenant has terminated, or has been varied or cancelled by an agreement,—

If a forest sink covenant is varied, cancelled, or terminated, the Minister must give notice of the variation, cancellation, or termination in the prescribed form to the Registrar-General of Land.

**“Subpart 2—Cost recovery**

**“67ZF Principles of cost recovery**

- “(1) The Minister must take all reasonable steps to ensure that the direct and indirect costs of administering this Part that are not provided for by money appropriated by Parliament for the purpose are recovered under this subpart, whether by way of fees, levies, or otherwise.
- “(2) In determining the most appropriate method of cost recovery under **section 67ZG**, the Minister must have regard, as far as is reasonably practicable, to the following criteria:
- “(a) equity, in that funding for a particular function, power, or service, or a particular class of functions, powers, or services, should generally, and to the extent practicable, be sourced from the users or beneficiaries of the relevant function, power, or service at a level commensurate with their use or benefit from the function, power, or service:
  - “(b) efficiency, in that costs should generally be allocated and recovered in order to ensure that maximum benefits are delivered at minimum cost:
  - “(c) justifiability, in that costs should be collected only to meet the actual and reasonable costs (including indirect costs) for the provision or exercise of the relevant function, power, or service:
  - “(d) transparency, in that costs should be identified and allocated as closely as practicable in relation to tangible service provision for the recovery period in which the service is provided.
- “(3) Costs should not be recovered under this subpart unless there has been appropriate consultation with affected persons or representatives of persons substantially affected.
- “(4) Nothing in **subsection (3)** requires consultation in relation to specific fees or charges, or the specific levels of fees or

charges, so long as the fees or charges set are reasonably within the purview of any general consultation; and a failure to comply with **subsection (3)** does not affect the validity of any regulations made for the purposes of this subpart.

- “(5) Nothing in this section requires a strict apportionment of the costs to be recovered for a particular function or service based on usage; and, without limiting the way in which fees or charges may be set, a fee or charge may be set at a level or in a way that—
- “(a) is determined by calculations that involve an averaging of costs or potential costs:
  - “(b) takes into account costs or potential costs of services that are not directly to be provided to the person who pays the fee or charge but which are an indirect or potential cost arising from the delivery of the service in question to a class of persons or all persons who use the service.

Compare: 2003 No 114 s 84

“67ZG **Methods of cost recovery**

The methods by which costs may be recovered under this subpart are as follows:

- “(a) fixed fees or charges:
- “(b) fees or charges based on a scale or formula or at a rate determined on an hourly or other unit basis:
- “(c) use of a formula or other method of calculation for fixing fees and charges:
- “(d) the recovery by way of fee or charge of actual and reasonable costs expended in, or associated with, the performance of a service or function:
- “(e) estimated fees or charges, or fees or charges based on estimated costs, paid before the provision of the service or function, followed by reconciliation and an appropriate further payment or refund after provision of the service or function:
- “(f) levies:
- “(g) any combination of the above.

Compare: 2003 No 114 s 85

**“67ZH Cost recovery to relate generally to financial year**

- “(1) Except as provided in **subsection (2)**, any regulations under this subpart that set a fee, charge, or levy that applies in any financial year—
- “(a) must have been made before the start of that financial year; but
  - “(b) except as the regulations may otherwise provide, apply in that year and all subsequent years until revoked or replaced.
- “(2) **Subsection (1)** does not prevent the alteration or setting during any financial year of a fee, charge, or levy payable in that year if either—
- “(a) the fee, charge, or levy is reduced, removed, or restated without substantive alteration; or
  - “(b) in the case of an increase or a new fee, charge, or levy,—
    - “(i) appropriate consultation has been carried out with persons or representatives of persons substantially affected by the alteration or setting; and
    - “(ii) the Minister is satisfied that those persons, or their representatives, agree or do not substantially disagree with the alteration or setting.
- “(3) **Subsection (1)** does not prevent the amendment of any regulation setting a fee, charge, or levy if any substantive alteration effected by the amendment is for the purpose of correcting an error.
- “(4) Recovery may be made in any financial year of any shortfall in cost recovery for any of the preceding 4 financial years, and allowance may be made for any over-recovery of costs in those years (including any estimated shortfall or over-recovery for the immediately preceding financial year).

Compare: 2003 No 114 s 86

**“67ZI Minister may review levels and methods of cost recovery**

- “(1) The Minister may, as and when appropriate, review the levels and methods of cost recovery in relation to forest sink covenants.
- “(2) A review may make provision for recovery in any relevant financial year of any shortfall in cost recovery for any of the preceding 4 financial years, or make allowance for any over-

recovery of costs in those years (including any estimated shortfall or over-recovery for the immediately preceding financial year).

- “(3) To avoid doubt, all areas of cost recovery need not be reviewed at the same time, nor is there any time limit on the making of regulations to implement the results of a review.

Compare: 2003 No 114 s 87

“**67ZJ Fees and charges to be prescribed by regulations**

- “(1) The Governor-General may, by Order in Council and on the recommendation of the Minister, make regulations prescribing fees and charges for the purposes of this Part.

- “(2) The fees and charges may be prescribed using any 1 or more of the methods specified in **section 67ZG**, or any combination of those methods.

- “(3) Different fees and charges, or different rates or types of fee or charge, may be prescribed in respect of different forest sink covenants.

- “(4) Without limiting **subsection (3)**, the fees and charges prescribed may—

“(a) differ depending on whether a special or urgent service is provided:

“(b) include more than 1 level of fee or charge for the same service provided in different ways, or provided in, or in respect of, different places:

“(c) differ for otherwise similar services provided in different ways:

“(d) differ depending on the amount of service required or the components of the service required for the particular person.

- “(5) If regulations prescribe a formula for determining a fee or charge, the formula may specify the value attributed to any component of that formula.

- “(6) The Minister may not recommend the making of regulations under this section unless satisfied that, to the extent appropriate in the circumstances, the requirements of **sections 67ZF and 67ZH** have been met.

Compare: 1993 No 95 s 137

**“67ZL Contents of levy order**

  - “(b) the circumstances in which, and conditions subject to which, persons may be allowed extensions of time for the payment of any levy:
  - “(c) the payment of additional or increased levy when amounts of levy otherwise payable have been paid late, paid in part, or not paid at all:
  - “(d) the holding of funds from which payments of levy are to be made, on trust in separate accounts.

Compare: 1993 No 95 s 140

**“67ZM Trust accounts required to be kept by persons collecting levies**

- “(1) If a levy order made under **section 67ZK** requires the operation of a trust account for any levy money by the person responsible for collecting the levy,—
- “(a) any amount held in such an account that is due to be paid to the Secretary by the levy collector is to be treated as levy money held on trust for the Secretary; and
  - “(b) any amount so held on trust is not available for the payment of a creditor (other than the Secretary) of the levy collector, and is not liable to be attached or taken in execution at the instance of that creditor; and
  - “(c) a person who ceases to be a person responsible for collecting a levy must continue to maintain the trust account until all the levy money payable to the Secretary in respect of the period during which the person was responsible for collecting the levy has been paid.
- “(2) Nothing in **subsection (1)(c)** affects any obligation or liability under this Act of any other person who has become responsible for collecting the levy concerned.

Compare: 2003 No 114 s 90

**“67ZN Fees, levies, and charges to constitute debt due to Secretary**

Any fee, levy, or charge that has become payable is a debt due to the Secretary, and is recoverable by the Secretary as a debt in any court of competent jurisdiction. Until paid in full, it remains a debt due to the Crown.

Compare: 2003 No 114 s 93

**“67ZO Penalties for failure to pay fee, levy, or charge**

- “(1) If a person has failed to pay to the Secretary by the due date any fee, levy, or charge payable under this subpart,—
- “(a) section 14 of the Ministries of Agriculture and Forestry (Restructuring) Act 1997 applies to increase the amount payable; and
  - “(b) section 15 of that Act applies to allow the Secretary, in appropriate cases, to waive the payment of all or any of the amount of any such increase; and

- “(c) section 16 of that Act applies to allow the Secretary to withdraw, or refuse to provide the person in default with, any service of the kind to which the debt relates.
- “(2) For the purposes of **subsection (1)(c)** and section 16 of the Ministries of Agriculture and Forestry (Restructuring) Act 1997, and without limiting the generality of section 16 of that Act, the references in those provisions to the refusal to provide any service are to be treated as also authorising the Secretary, in an appropriate case, to refuse to perform any function under this Act leading to the issue of units in relation to the person in default.
- “(3) If the refusal requires the Secretary to provide any further service, or perform any further function involved in the refusal, the Secretary may recover any reasonable amount for the additional service, function, or costs as a debt due from the person who owns or is responsible for the operation concerned.

Compare: 2003 No 114 s 94

**“67ZP Obligation to pay fee, levy, charge, or penalty not suspended by dispute**

The obligation of a person to pay any fee, levy, charge, or penalty under this subpart, and the right of the Secretary to receive and recover the fee, levy, charge, or penalty, are not suspended by any dispute between the person and the Secretary regarding the person’s liability to pay the fee, levy, charge, or penalty, or the amount of the fee, levy, charge, or penalty.
